

Math 9 Short Answer Homework – 10B, 12; SHOW ALL WORK

1	Find the center and radius of circle: $x^2 + y^2 - 10x + 12y - 3 = 0$
2	Find the x and y values of the solution of the system of equations: $2x - 3y = 9$ $5x + 2y = 13$
3	Solve for x: $ 2x - 1 > 13$
