

<p><b>Math 14</b> section 04 6004 ; Monday, Tuesday and Wednesday ; meets synchronously on Blackboard Collaborate Ultra from 11:30AM – 12:30PM; Thursday on-campus 11:30AM-12:30PM room F112; Course is Hybrid/Online-Synchronous All Accessibility accommodations must be submitted to me in writing via email Attendance is mandatory for all in-person class lectures</p>																											
Professor R. Sturm; office hours after 12:40 (by appt.) on ZOOM; <a href="mailto:rsturm@kingsborough.edu">rsturm@kingsborough.edu</a>																											
<b>Prerequisite:</b>	Math 09 with a grade of "C" or better																										
<b>Textbook:</b>	PreCalculus a Right Angle Approach (Second Custom Edition for KBCC) by Ratti & McWaters ISBN 1-323-62948-3 ( <a href="http://directtextbook.com">directtextbook.com</a> )																										
<b>Attendance Policy:</b>	More than 3 on-campus (Thursday) absences and/or more than 5 missing or late "mathbreeze" assignments will result in a "WU" grade. Attendance is mandatory for all in-person class lectures																										
<b>Mark Distribution:</b>	<p><b>Online "mathbreeze" homework 10%</b>  <b>Several quizzes 10%</b>  <b>Three exams 50%</b>  <b>Final exam 30%</b></p> <p>The lowest in-class exam grade will be dropped. There are no make-up exams. If a student misses more than one exam then the grade(s) will count as 0. The two lowest quiz scores will be dropped. If a student misses more than two quizzes then the grade(s) will count as 0. Late submissions of online homework will receive 50% of earned score.</p> <p><b>All exams/quizzes are held in-person, on-campus. No exceptions will be made.</b></p>																										
<b>Calculators:</b>	No calculators on exams or quizzes																										
<b>Homework:</b>	<b>Online homework is submitted after the due date will receive 50% of earned score.</b>																										
<b>Email:</b>	Please communicate <u>only</u> via your KBCC email address.

011 Linear Equations in One Variable	026_027 A Library of Functions; Transformations																										
013 Complex Numbers	028_029 Combining Functions; Composite Functions																										
012 Quadratic Equations	Review Exam 2																										
014 Other Types of Equations	031 Quadratic Functions																										
015A Linear Inequalities	032 Polynomial Functions																										
015B Rational and Polynomial Inequalities	036 Rational Functions																										
016 Equations and Inequalities involving Absolute Values	041 Exponential Functions																										
Review Exam 1	042_043_044 Logarithms, Exponential and Log Equations																										
021 The Coordinate Plane	102_103_104 Parabola, Ellipse , Hyperbola																										
022 Graphs of Equations	Review Exam 3																										
023 Lines	Review for Final																										
024 Relations and Functions																											
025 Properties of Functions
